This course is an intensive hands-on training program that will prepare students to respond to confined space emergencies. The course provides information in identifying confined spaces and permit-required confined spaces, the hazards associated with permit required confined spaces, target industries and hazards, state and federal regulations, components of a rescue operation, and the roles and responsibilities of rescue teams.

The course will include a selection of manipulative drills. Students Must bring to class the following Personal Protective Equipment: safety-toed boots, helmet (structure, brush, or Tech Rescue type), brush pants and jacket, and eye protection.

Knee and elbow pads are optional.

Code of Conduct: Appropriate dress for class is required. It is the student's responsibility to maintain a clean, neat and professional appearance. Some courses may require the wearing of uniforms or special attire. Course coordinators and/or course announcements may specify either a style or type of dress for a specific course.
