This course is designed to equip the student with the techniques and methods for using rope, webbing, hardware and litters in low angle rescue situations. Areas covered include: Rope and related equipment, anchor systems, safety lines, litter lashing and rigging, mechanical advantage systems and single line and dual line rescue systems. Students must come to class each day with the following personal protective equipment: Long pants, long-sleeved shirt or brush jacket, boots, rigging or utility gloves, eye protection, and helmet (tech rescue, brush or structure).

Code of Conduct: Appropriate dress for class is required. It is the student's responsibility to maintain a clean, neat and professional appearance. Some courses may require the wearing of uniforms or special attire. Course coordinators and/or course announcements may specify either a style or type of dress for a specific course.
