This course is designed to train fire service personnel in hands-on application of the techniques necessary to safely affect a rescue from an excavation or trench collapse.

Topics include: Critical considerations while responding to trenching emergencies, evaluation of collapse scenes, basic life support procedures and temporary protection for victims and rescuers, specialized tool usage, shoring techniques, and below grade rescue safety procedures.

Students must come to class each day with the following personal protective equipment: Long pants, long-sleeved shirt or brush jacket, safety-toed boots, rigging or utility gloves, eye protection, and helmet (tech rescue, brush or structure).

Code of Conduct: Appropriate dress for class is required. It is the student's responsibility to maintain a clean, neat and professional appearance. Some courses may require the wearing of uniforms or special attire. Course coordinators and/or course announcements may specify either a style or type of dress for a specific course.
