Section H Waiver/Refund of Fees

Except as otherwise provided by law, the Board of Supervisors, by Board action, can waive or refund any fee set forth in this chapter or any other fee levied by the County provided one of the following conditions is met:

1. The service for which the fee was levied has not and will not be performed, or
2. The fee was collected in error, or

3. For other good cause shown, provided such waiver/refund would serve a public purpose.

Section I Annual Increase

All annual fees will be subject to an annual increase based on the percentage change in the Consumer Price Index, All Urban Consumers (All items), for the Los Angeles-Riverside-Orange County, California area, with the Standard Reference Base (1982-84=100) as published by the United States Department of Labor, Bureau of Labor Statistics. The "annual average" percentage published by the Bureau of Labor Statistics will be used to determine the maximum annual increase. This percentage, which is calculated at the end of each calendar year, is available in January following the end of the previous calendar year. However, no adjustment shall decrease any fee and no fee shall exceed the reasonable cost of providing services. If reasonable program costs exceed the maximum annual increase, an additional fee increase may be established by resolution of the Board of Supervisors. Fees will be rounded to the nearest whole dollar.
