Recycling Used Motor Oil and Oil Filters is the Right Thing to Do

- Dumping used oil (or any chemical) is a crime – legally and environmentally.
- Dumped oil contaminates ground water – our drinking water source.
- Used oil is insoluble and can contain toxic chemicals.
- Used oil kills plant and aquatic life.
- Dumped oil contaminates ground water – our drinking water source.
- Dumping used oil (or any chemical) is a crime – legally and environmentally.

Facts to Remember When Recycling Oil

- Drain your oil from cars, trucks, motorcycles, boats, recreational vehicles, lawn mowers, etc., into a reusable, sealable container. Call 1-800-OILY CAT for free oil container availability.
- Do not dump oil on the ground, in the gutter or storm drain, or throw in the trash.
- Do not mix anything with the oil (water, paint, pesticides, solvents, diesel, antifreeze or gasoline).

Important Tips & Facts

- Always call a medical professional or the Drug and Poison Information Center for advice on poisoning at 1-800-222-1222.
- Always call a medical professional or the Drug and Poison Information Center for advice on poisoning at 1-800-222-1222.
- Rinse the container, use the rinsed product from the container and recycle the empty container.
- Choose "ready-to-use" products instead of more toxic concentrated products.
- Choose "ready-to-use" products instead of more toxic concentrated products.
- Never mix products together unless the label calls for it (for example, ammonia mixed with chlorine bleach form a poisonous gas).
- Never mix products together unless the label calls for it (for example, ammonia mixed with chlorine bleach form a poisonous gas).

Information Sources

For County Solid Waste disposal site information, call: 1-800-722-8004

For tire disposal, special or hard-to-handle wastes, call: Solid Waste Management Division... 909.386.8701

Contacts for Non-San Bernardino County residents:

- Riverside County: 1.800.304.2226
- Fontana residents only, call City of Fontana: 909.350.6789
- Los Angeles County: 1.800.253.2652

Waste Minimization is Pollution Prevention

- If you spill a chemical on the ground: Contain and cover the spill with an absorbent material (kitty litter, saw dust), sweep and scoop absorbent and container into a plastic bag, and take to a permanent household hazardous waste collection facility.
- Contact the Household Hazardous Waste Program at (909) 382-5401 or 1-800-OILY CAT for large spills and proper disposal of explosive, radioactive or infectious materials.
- Buy only what you need, in the smallest amounts available. Use it all or share with neighbors.
- Choose "ready-to-use" products instead of more toxic concentrated products.
- Rinse the container, use the rinsed product from the container and recycle the empty container.
- Use broad spectrum products which work on more than one pest, e.g., boric acid kills both ants and roaches.
- Never dump hazardous products down the toilet, drain, on the ground or in the trash.

Material Reuse

FREE Material Reuse Products available at the San Bernardino Household Hazardous Waste Collection Facility Monday through Friday, 1:00 p.m. to 3:30 p.m. Product availability not guaranteed.

Reduce Your Waste By Using Safer Alternatives

- Use non-toxic/biodegradable soaps or baking soda.
- Use pump-type sprays instead of aerosol sprays.
- For pest control, remove food/water sources, sweep and scoop into a plastic bag, and take to a permanent household hazardous waste collection facility.
- Buy re-refined motor oil.
- Use mechanical or sticky traps.
- Use non-toxic/biodegradable soaps or baking soda.
- For pest control, remove food/water sources, sweep and scoop into a plastic bag, and take to a permanent household hazardous waste collection facility.
